“ out of all of this, I'm most proud of the life that all of you guys helped her experience. Clearly, she had some incredible challenges. You all became something solid and beautiful in her life. I can imagine the times when she was sick or sad. If she saw the face of ANY of y'all, she knew that she was safe and could feel comfort. The testament of her life became a testament of you all as a family and cushion of support for Alicia.
